ULTRA SLIM  
LED PANELS

## FERRO

---

Inspired by shadow box wall art, multiple cubes outlined by painted black or gold frames are positioned in dimensional patterns and illuminated by LED panels to create a dramatic visual effect. The strategically placed direct and indirect light sources illuminate up and down for even more visual interest. The Ferro collection can bring its modern design to a variety of rooms with available chandelier, pendant, flushmount and wall sconce options.

# OMBRA

Indirect lighting is cast upward into circular blades discretely held by the outer frame and direct, integrated LED lighting is cast downward for a dramatic interplay of light and shadows in this seamless design. For added versatility, Ombra is available in a larger oval chandelier or a smaller circular pendant plus two finish options: precision laser-cut black blades accentuated by a natural brass frame or dark bronze frame with laser-cut polished nickel blades.

**CONSTELLATION INSPIRED  
LED ARRANGEMENT**

## **LEONARDELLI**

---

Inspired by the celestial, dozens of small LED lights arranged in geometric shapes at the end of fine rods give this light, airy chandelier the appearance of floating. This unique source of illumination has a glossy, polished chrome frame and is available in three sizes to bring a starburst of lighting to areas of varying sizes. Adding to the stargazing allure, light refracts differently when viewed from multiple angles.

CUSTOMIZABLE LED PENDANTS

**FLUID COPPER RAIL FOR  
EASY MODULE ATTACHMENT**

## MUCCI

---

A new custom system for lighting, the minimalist Mucci collection features a black aluminum body in round and rectangular options to bring a sleek, contemporary design to multiple environments. Integrated LED lighting is built into the fixture frame to create one unified piece, with the option for an inner or outer glow in the circular chandeliers. Mucci is fully customizable with multiple light modules that can be easily attached to a copper power rail above the black aluminum frame for tailored directional lighting.

MATTE BLACK

Custom lighting made just the way you want it. This low-voltage system creates a safe environment that reduces the risk of shock despite it's exposed copper rail. After selecting your pendant, add your accessories based on functionality and style. A special hook design allows for easy attachment to hang modules on the inside or the outside of the ring. Add as many modules as you would like, up until 70 watts max.

## BLOOMFIELD

---

A lustrous collection of delicate, high-gloss metal chains cascade like gleaming streams of water in this transitional piece. Resembling armored chain mail, the lustrous, plated mesh envelops each integrated LED light to add a soft, shimmering glow. The Bloomfield collection, available in black or gold finish, makes a statement in large spaces, including the largest 73", 28-light chandelier that's perfect for grand spaces.

**ANODIZED ALUMINUM**

**OUTWARD LED  
LIGHT SOURCE**

## **COBURG**

Slim, edge-lit LED panels are creatively positioned to intersect in a dynamic, whimsically modern design. The interlocking aluminum panels are laser cut for added precision and anodized to create a durable, corrosion-resistant finish that's available in either gold or black. A continuous run of LED lights delivers seamless, multi-directional lighting. With three smaller sizes, hang this eye-catching beauty above a small table or over a modern desk. The new larger linear chandelier works well above a longer rectangular table.

# AERIE

Free-flowing, gilded branches of gold and silver float elegantly within a stylish open-cage design linear frame made from solid cast brass. The thin twigs are handcrafted with metal foil and accentuated by pinhole recessed LED lighting to add a luxurious glow to this nature-inspired collection. Available in rectangular and circular bronze-finished frames with gold branches or a black-finished frame with silver branches, as well as round and square pendants, and wall sconce options.

MODERN HANGER DESIGN

## PEMBERTON

A black ring of LED light is suspended by two satin nickel or gold-finished metal rods on either side. An unconventional approach to a simple concept, this slightly retro yet trendy line features a chic simplicity that still attracts attention. Integrated LED lighting provides a continuous, seamless source of soft light. Available in a circular or a new oval shape, this simple piece allows for multiple settings with two finishes and optional pendant or semi-flushmount application.

A chandelier featuring several large, clear glass spheres with a warm amber tint. Each sphere is encircled by a horizontal brass band. The spheres are suspended from a central brass structure by thin rods. The lighting is warm and ambient, highlighting the texture of the glass and the metallic sheen of the brass.

**COGNAC BLOWN GLASS**

## **NOTTINGHAM**

A brass band encircles cognac glass orbs that get their beautiful amber color from minerals added during the glassmaking process to beautifully reflect a warm glow from the vintage lights within. The soft gold-plated metal creates an inviting ambiance despite its industrially austere design. Options include single pendants and flushmounts with varying sizes or as a 5-light, 6-light or 10-light chandelier.

**UNIQUE PIASTRA GLASS**

## **PAGET**

---

Multiple layers of monochrome sugar glass ripples are encased in clear glass plates that are all handmade, creating one-of-a-kind works of art with no two pieces exactly the same. The golden hues of the frame accentuate a soft white glow from the recessed LED lights emanating from each piastra glass, which is hand-formed, pressed glass made from techniques that date to the 13th century. Each piece cascades in a mesmerizing, rhythmic pattern. Multiple sizes add versatility so these eclectic pieces can be used in a number of rooms and applications.

BRASS RIVETS

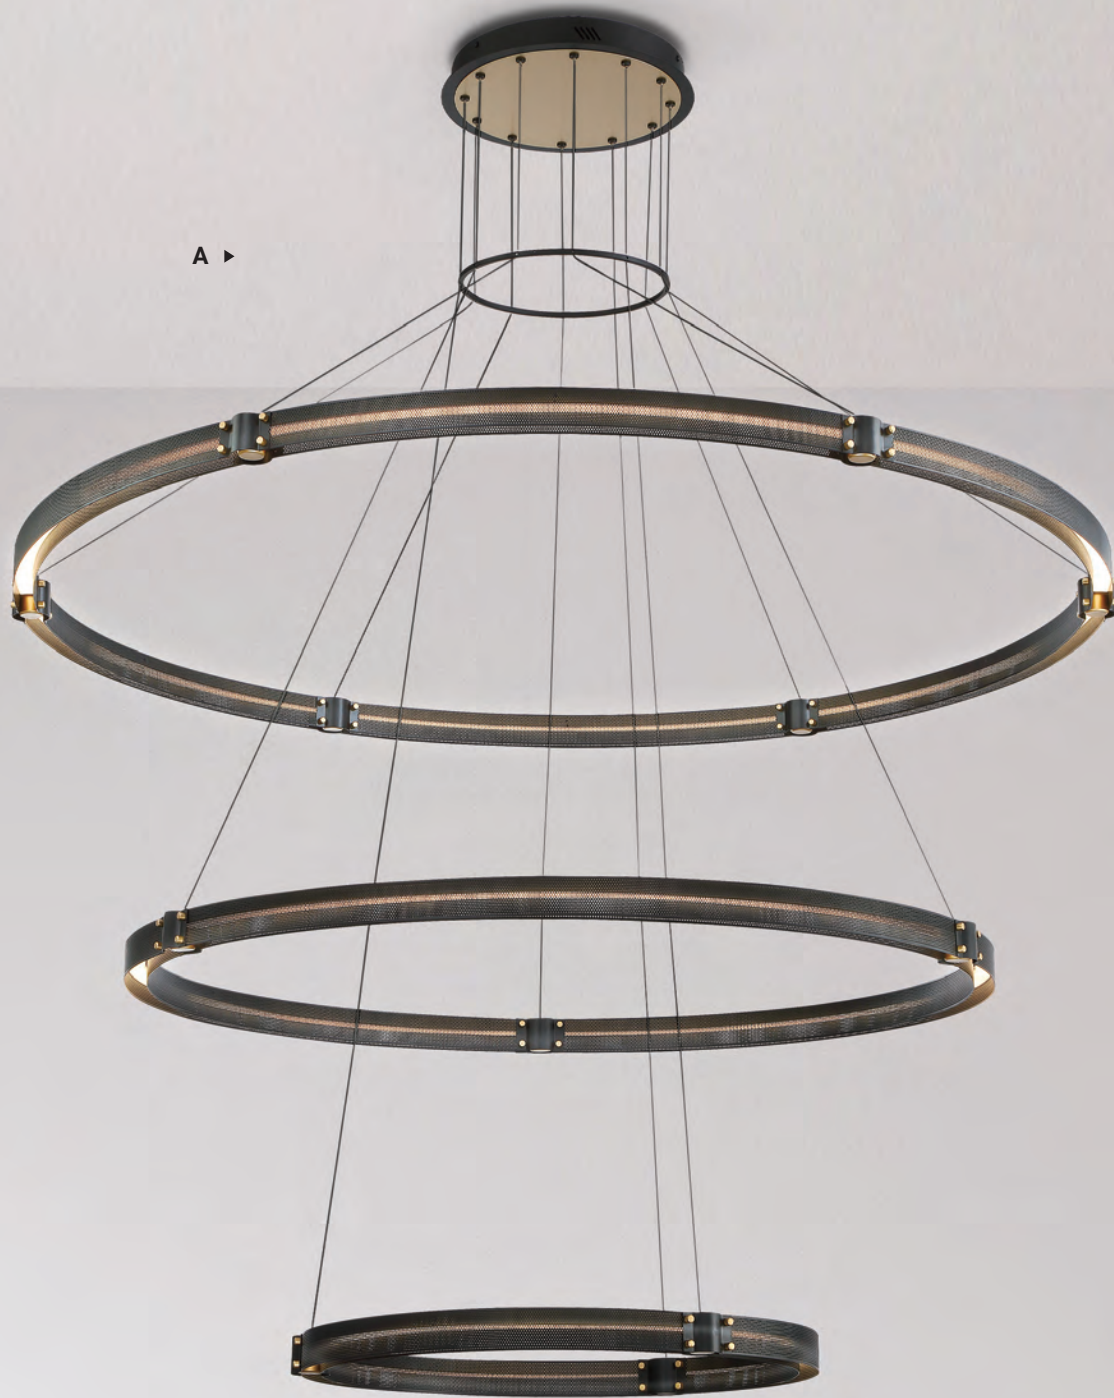

FILIGREED METAL

## ADMIRAL

LED bands of integrated light beam through intricate filigreed metalwork that acts as a unique way to diffuse light. An inviting warmth radiates from this collection, highlighting matte black and rich brass, and decorative gold rivets with a dark perforated lens. This extensive family offers circular chandeliers, rectangular chandeliers and linear pendants, as well as a wall sconce that can be horizontal or vertical for endless applications.

ADMIRAL WALL SCONCE  
38004-018

# METALLO

Mid-century contemporary style meets a vintage, almost rustic design with a bit of a medieval influence. With its hand-rolled soft curves, gentle bend in natural brass-plated metal and warm tones, the Metallo collection lends an inviting, calming feel to multiple settings. Clear or frosted incandescent bulbs help add more depth to the background color tones. Available in semi-flushmount, round chandelier and a 12-light oval chandelier with vintage nickel or brass.

**LARGE SCALE  
HAND-BLOWN GLASS**

## **CAMPISI**

---

The timelessness and charm of a candelabra meet the openness of delicate hand-blown glass in this transitional design that has endless possibilities in multiple room types. The clear glass looks almost suspended by the frame, with the two working together to create a light, transparent feel. The linear 8-light chandelier is a perfect centerpiece for over an island or oval dining room table. The 3-light, 6-light and 8-light chandelier are all available with matte black, soft brass and polished chrome frame finishes.

**GLEAMING GOLD INTERIOR**

## TURA

---

Scandinavian and industrial-inspired design come together in the Tura collection. Characterized by simplicity, minimalism and functionality, Scandinavian-inspired design is influenced by a connection to nature through natural shapes, abstraction and the use of natural materials. The iron-cage frame adds an industrial touch while silhouetting the light inside. The gold industrial cage is wrapped in either a smooth hardback black shade, which beautifully reflects the light, or a white linen shade for a softer, natural feeling. A range of pendant sizes are perfect for above kitchen islands and 1-light wall sconces bring added versatility to the collection.

# PENNINO

---

Pennino chandeliers beautifully balance metal, wood tones and glass at home in a modern farmhouse, an organic casual setting with natural textures and clean shapes, transitional décor or even at a coffee shop in Italy. Hand-painted matte black metal, a weathered gray wood finish and subtle cast glass within make an artistic statement and provide interesting visual depth when viewed from different angles. A matching cast-glass wall sconce torch perfectly complements the chandeliers to bring additional elegance and versatility to the collection.
