# UNDERSTANDING DELIVERED LUMENS

## Delivered Lumens

Delivered lumens refer to the actual amount of light that reaches your space from a light source. Unlike raw lumens, which measure the total light output of a bulb or fixture, delivered lumens account for any light lost due to design elements such as the fixture itself, shades, diffusers, or covers. The measurement of delivered lumens provides a more accurate representation of the effective illumination in a given space, as it considers how much light is actually usable after passing through any barriers or diffusing materials.

## ICON GUIDE

### Integrated LED

LED lighting is seamlessly integrated into the fixture design.

### Defogger

An integrated feature that will prevent fogging by heating the surface to keep it clear of condensation.

### Easy Installation

The product arrives pre-assembled, requiring only mounting and hardwiring to a junction box.

### Dimmable

The illumination can be increased or decreased with a dimmer switch (sold separately).

### Wet-Rated

A wet-rated fixture is suitable for direct exposure to precipitation.

### Horizontal / Vertical Mount

Mirrors can be mounted in portrait and landscape orientation.

### Correlated Color Temperature

CCT is a measurement used to reference the color of light.

### Damp-Rated

Designed and constructed to withstand exposure to moisture and damp conditions.

### Patent Pending

This design is currently patent-pending, giving Eurofase exclusive rights and ensuring its unique design remains protected.

### Touch Controls

A type of control that allows the user to operate and select functions through touch.

# LED MIRROR COLLECTION

# WHY CHOOSE EUROFASE MIRRORS

All of our mirrors are designed and built to UL/ETL standards for North America, ensuring the highest level of quality and reliability.

<ul style="list-style-type: none"> <li>High quality, lead free, copper free corrosion resistant glass.</li> </ul>	 
<ul style="list-style-type: none"> <li>Durable, damp-rated construction for the frame, parts, and hardware.</li> </ul>	 
<ul style="list-style-type: none"> <li>Meets Title 24 requirements.</li> </ul>	
<ul style="list-style-type: none"> <li>Safety added Shatter proof adhesive backing mirror panes.</li> </ul>	
<ul style="list-style-type: none"> <li>High-efficiency LED chips produce maximum lumens while using minimal power.</li> </ul>	
<ul style="list-style-type: none"> <li>90+ Color Rendering Index.</li> </ul>	
<ul style="list-style-type: none"> <li>Convenient and safe wall mounting bracket design.</li> </ul>	
<ul style="list-style-type: none"> <li>The memory function allows the mirror to return to its last used setting when it is turned on or off from the wall switch.</li> </ul>	
<ul style="list-style-type: none"> <li>Carefully packed and crated to final destination.</li> </ul>	

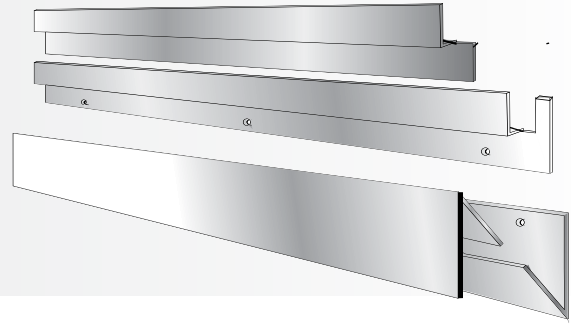

## CORRELATED COLOR TEMPERATURE

CCT defines the color appearance of a white LED. Color temperature is specified in Kelvin. Depending on its CCT, the light will either be classified as warm, neutral, or cool.

Light Classification	 WARM	 NEUTRAL	 COOL
Ambiance	Areas needing low light applications to create a cozy, calm, inviting, and intimate atmosphere.	Light intensity applications for bright and vibrant mood.	Special applications needing high light and excellent color rendition to create a crisp and invigorating atmosphere.
Effects on Colors	<ul style="list-style-type: none"> <li>-Enhances reds &amp; oranges</li> <li>-Blues appear darker</li> <li>-Orange and yellow tint to whites and greens</li> </ul>	<ul style="list-style-type: none"> <li>-Enhances most colors equally</li> <li>-Does not favor yellow or blue</li> <li>-Neutral appearance</li> </ul>	<ul style="list-style-type: none"> <li>-Enhances blues</li> <li>-Flattens reds</li> <li>-Bluish tint to whites and green</li> </ul>

# EASY HANG WALL BRACKET

Makes installation easier and adaptive to the space.

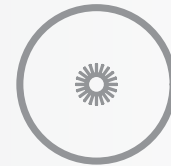

# INTEGRATED TOUCH CONTROLS

All of our LED mirrors feature touch-activated controls integrated into the glass. These controls are tastefully illuminated in a soft white color for subtle visibility. Here are the functions controlled by the touch-activated controls:

# ON/OFF POWER & STEPLESS DIMMING

Touch the ON/OFF button to control power, or hold it to adjust brightness levels up or down.

# ON/OFF DEFOGGER

Tap the defogger button to avoid condensation on mirror surface.

All mirrors are equipped with 1-hour automatic shut-off for added efficiency.

# 3-STEP CUSTOM COLOR CONTROL

Press the CCT touch button to cycle through three preset color settings (3000k, 4500k, and 6500k).

3000K

4500K

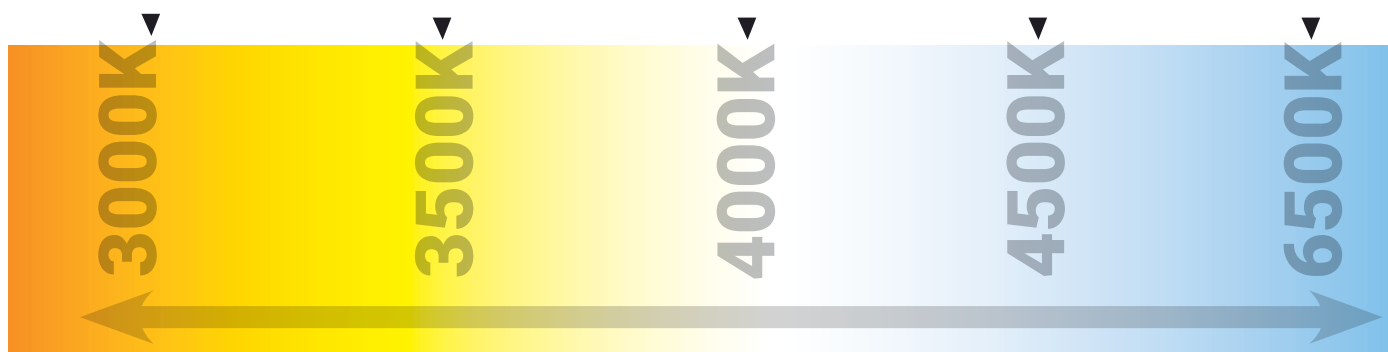

6500K

# STEPLESS CUSTOM COLOR CONTROL

Hold the CCT button to adjust through the full range of color temperatures (3000K-6500K), allowing for precise adjustment.
